EXPLANATION ABOUT THE RESORT

Domaine de Gavaudun is a large property (35 ha – 87 acres) but a very small family owned and run resort (25 units, of which 3 in timeshare). This is atypical within RCI.

This means that we have a very personal contact with our guests and we can give you a lot of valuable advice about the area, but that the on site activities and facilities are obviously limited. Also, you must understand that despite all our good will, we cannot stay available 24 hours a day ... We have only 2 workers, during the week, for maintenance and gardening.

Please be aware that we can only open the restaurant in July and August, when we can get outside customers from campgrounds around, but there are many good restaurants in the vicinity and we will be glad to reserve a table time for you.

We live in a remote rural area, our property is extremely beautiful and peaceful, there are some very nice walks around and you should come here to enjoy the nature and to visit the area, which is really gorgeous, with lots of prehistoric sites, medieval cities and castles, superb landscapes, vineyards, gastronomy, etc.
We will try to give you as much useful information as possible upon arrival.
A car is absolutely required.

Please look at our Web Site www.domaine-de-gavaudun.com for preliminary information.

We have a delightfully peaceful property, with simple but pleasant accommodation. Enjoy it !

Eric, Michèle and Vincent Schlösser

EXPLANATION ABOUT THE OPERATING EXPENSES

We have to abide by the French law and neither ourselves, neither RCI, could do anything about it.

According to the law on the "Societe Civile d'Attribution en Temps Partage", under which we are incorporated, we are not allowed to charge operating expenses (water, electricity, linen, cleaning, ...) to the owner of the week. The owner will only pay actual maintenance costs of the unit (repairs, painting, gardening, general maintenance of the resort, ...). The usage charges are to be paid by the user and that is the reason why, unlike in most other countries, you have to pay operating expenses in most French resorts. The French resorts which would not do so either do not abide by the law (charging the owners), or are operating under another law, i.e. the owners of the weeks aren't actual owners but have a long term lease for their week, which will return to the residence at the end of the lease (in this case, there is no law governing the operating expenses, and the resorts are generally following usual RCI practices).

RCI is perfectly aware of these costs : the detail of the charges is described in our contract with RCI and they do mention in their description of our resort that there are operating costs to pay upon arrival (without specifying how much because they depend on the unit). In order to avoid bad surprises when you arrive, we are always sending you a letter or e-mail two months in advance with the detail of the costs as long as we receive your address from RCI. Detailed information is also available on our Web Site. We really cannot do any better.

In order to allow you to reduce the costs if you want, we made linen and cleaning optional. Most resorts charge a lump sum including everything.

Operating expenses, with all the work involved, are really charged at cost. To bring things into perspective, a French garage would charge between 50 and 60 euros per labor hour to repair your car ... Full cleaning of a small unit takes about 2 hours and full cleaning of a large unit takes 3 to 4 hours !

You may do the final cleaning yourselves or ask us to do it for you (at a charge). Please note if we have to finish up cleaning or have to do it all over again after your departure because the cleaning was not perfect (ready for the next occupant), we will obviously have to charge you.

Note : In order to handle all RCI members the same way, in exchange or rental, we apply the same rules for rentals. RCI rental prices were reduced accordingly.
